

International Conference on 21st Century challenges to sustainable agri-food systems

March 15-17, 2007, Bangalore, India

Guidelines for the poster presentation for the Accepted Abstracts

The poster design plan should relate to a rectangular space of 120 cm (height) x 90 cm (width). We recommend that you convert your material into a single large printed sheet with visual appeal for display during the conference. Posters should include title of the paper, name and address of author(s), short introduction, methodology, results and discussion, conclusions and policy implications. Graphical representation and/or photographs with minimum text are most ideal.
